Recommended for Confidential File for following reasons:

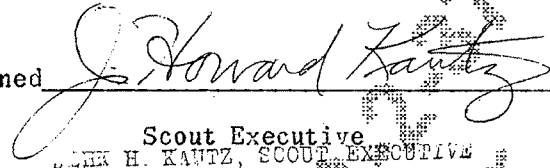

Airman Landis received an undesirable discharge under Air Force Regulation 35-66 for homosexuality with minor children ages 7-15 years. He joined the Air Force on 16 February 1959 and will be returning to the USA within the next few days. His act of homosexuality took place at several different times beginning about age 13. During a personal interview with the man he told me that this had never happened since he joined the United States Air Force but according to the Court Martial records to which I had access he had committed this act with two boys aged 7 and 8 just a few weeks ago. He has tried to fight this tendency but it does not seem that he has been successful. The Air Force feels that he needs psychiatric attention but cannot give this to him while he is in the service. For the short time that he worked in the Scout program he was a very
